

Emergency Air Horn Station

EMERGENCY AIR HORN STATIONS are finished in high-vis, safety-yellow and can be wall mounted indoors or outdoors. Access the included 5oz non-flammable Air Horn via the break-front handle, to alert co-workers in the event of an emergency. The Air Horn system can be used as an emergency evacuation or warning system. Includes 3 different decal sets allowing for flexibility of use.

Fire Blanket

FIRE BLANKET is comprised of three-ply construction - two layers of woven glass fiber and one inner layer of fire-retardant film. Designed for use in close quarters, this compact fire blanket provides an effective emergency fire shield to protect from or cover over and contain a fire in order to flee safely. Contains 2 quick-release pull tabs situated on the bottom for quick & easy bottom deployment.
