Fire Extinguisher Cabinets

FT-SERIES POLY FIRE EXTINGUISHER CABINETS work well indoors or out, thanks to their high-impact polystyrene construction and ultraviolet inhibitors that keep the color from fading, regardless of the weather or environment. They nest together, and their light weight reduces shipping costs over metal cabinets. Each cabinet includes an injection-molded frame, a scored break front, plastic cam lock with key, break-front striker, and a screen printed pictogram on the side.

HEAVY DUTY OUTDOOR FIRE EXTINGUISHER CABINETS help secure fire extinguishers from the elements, theft and vandalism. Cabinets are finished in high-vis baked-on red acrylic enamel over phosphate treated steel. The full-metal door opens smoothly using a full-length stainless steel piano hinge and is lockable via a keyed paddle latch. Available in three sizes to accommodate a 10LB, 20LB or 30LB fire Extinguisher. Easy surface-mount installation.
